## Double Cross by Aldo Colombini

£12.00

Two sets of ESP cards are shown. You make a prediction from one set and from the other the spectator selects a card (say a Cross). Alas, your card turns out to be a circle. When you turn over the other four cards, they spell the word CROSS, with the 'O.' being the original Circle! This is a very funny trick that is extremely easy to perform.

Set comes complete with colored cards and routine.
